

SWOSU Closed This Wednesday, May 16

05.14.2007

Southwestern Oklahoma State University in Weatherford and Sayre will be closed this Wednesday, May 16.

Public Service Company of Oklahoma will turn off all power this Wednesday at 8:30 a.m., according to Physical Plant Director Rick Skinner. Power will be restored later that evening.

All university servers will be down for the day, including email, blackboard, campus connect and all SWOSU web pages. Email messages that are sent during the power outage should be delivered to mailboxes soon after power is restored.

The phone and voice mail system will also be down for the day. If someone tries to call a SWOSU phone number during the power outage, they will not be able to reach voice mail or leave a message.

A campus officer will be on duty Wednesday. The number will be 580.772-4075 since other phone lines will be down.
